The feedback was collected from 40 parents. They were asked to respond on admission procedure, infrastructure, work culture, library services, sports facility, canteen facility, counselling, ICT, academic discipline, examination system, evaluation, career guidance and motivation for learning. Admission Procedure is somewhat time consuming and hence some parents are not satisfied with it. Some parents are not satisfied with sports and canteen facilities probably because these are the shared facilities with other constituent units of Vidya Pratishthan. Some parents are not satisfied with career counselling offered at the College and some are not satisfied about motivation for learning and personal growth. But most of the parents are found to be satisfied.

Action Taken Report

I have received the Feedback Analysis Report from the IQAC Coordinator and I have also gone through the suggestions of the students. I instructed concerned departments to improve further their functioning in order to achieve perfection and to resolve the issues of cleanliness of drinking water, classrooms, toilets and washrooms immediately and accordingly the cleanliness has been done. The educational tour will be organized next year also subject to permissions from the concerned authorities. Manupatra database subscription will be renewed to ensure availability of online resources. However, infrastructural changes are not possible.
